Please there is an additional two request that are been added and a better explanation on the third

1. Change Okey Bakasi picture
2. Change Extension Managing Director's image
3. Add gallery to show pictures of job printed, machine and staff.
4. Complete the whole third row of the logo section with attached logos
5. In shop client should be able to specify quantity of a particular item they want
6. Client should be able to track order by logging in/ registering account once they click purchase before payment is done.
7. Client should be able to upload the file (print design) that we will be printing for them (preferable to GDrive) after logging to their account
8. Change color of the feature section's item background for cyan and magenta to this shades 1.cyan(#01A9E9) 2. magenta(#F733BF)
9. Add a career page where we can post vacancies with requirement and instructions on how to apply
10. on each post page there should be a subscribe to get new Post similar to the one in the image below

Review feedback

1. Admin cannot see client orders and when view transaction link is clicked, transaction also cannot be viewed

Ans. This has already been implemented, Click on transaction menu in the admin dashboard

2. Change the picture in career page to the one attached

Ans. Will be implemented

3. There should be a provision for applicant to attach CV, and send it to this email address recruitments@globalplusonline.com with the subject of the mail to be the position advertised

Ans. This is a new feature with much management complexity, and was not part of the job scope. Please reach out to my management team to discuss terms

4. How can we add/remove vacancy

Ans. This has already been implemented, Click on Job menu in the admin dashboard to manage vancacies and Create Job button to create a Job

5. Option in gallery should not have label under it, we will update the picture to carry the label

Ans. Will be implemented

6. When I uploaded the picture it was not showing in photo list and in the frontend either

Ans. This has already been implemented, However your database shows that no picture was uploaded, pls upload a picture from the gallery management section on the admin dashboard and view in the appropriate category selected.

7. Increase the size of image and the dimension (to like 525 X 361px) as the picture would be too small to show anything

Ans. Will be implemented

    8. Can we have the picture display as slide?

Ans. This Functional wont be appropriate for the gallery format

    9. Gallery and career should be added sub-menu to the About Us Menu on the navigation bar

Ans. Will be implemented

    10. After purchase is clicked on the shop page the login page should indicate that new customer should Sign up/Create Account with link/ button to create account visible

Ans. This has already been implemented, However the button will be made more visible

    11. After new customer have created account it should direct them to the order page shown in the attached order.PNG file

Ans. Redirect to intended route can be done only for an already registered user. Note not all newly registered user was actually trying shop.

    12. Client should be able to upload the file (print design) that we will be printing for them (preferable to GDrive) after logging to their account

Ans. This has already been implemented, Click on order menu in the admin dashboard

    13. Change color of the feature section's item background for cyan and magenta to this shades 1.cyan(#01A9E9) 2. magenta(#F733BF)

Ans. This has already been implemented, However it will be implemented for the 3rd time now.
